BACKGROUND

A computer science student at KAU. Currently in my third year in the major. I plan to take networking, cybersecurity and web development courses over the next two semesters and hopefully specialize in those fields.

EDUCATION

2019-2023   **Computer science undergraduate**
King Abdulaziz University

Relevant coursework:

- Database: Created a database for a flight booking system using SQL plus.

- Software Engineering: Designed a reservation system for health facilities. (*without implementation*)

- Software Project Management: Learned several tools and techniques to manage projects, and applied them to organize a schedule for website using Microsoft Project.
